

CLEANING SUPPLIES

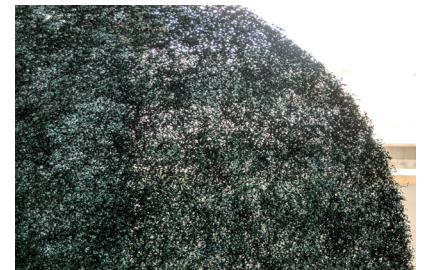

# GLOMESH SCRUBBING PADS

CLEANING SUPPLIES

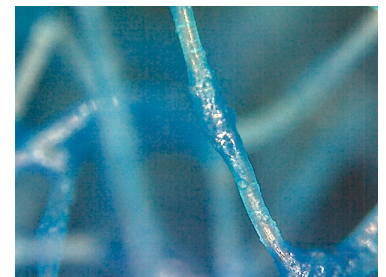

## DEEP CLEANING

The flexibility of each Glomesh pad enables it to deliver deep cleaning over "Peaks and Valleys" on any surface

## OPEN WEB DESIGN

Dissipates heat evenly. Reducing excessive heat being build up which can damage fibres and cause premature deterioration

## THICKER FIBRES

Microscopic image of Glomesh pad shows thicker and stronger fibres. A trait that increases durability of the pad

## Glomesh Scrubbing Pads

### INNOVATIVE SURFACE CLEANING TECHNOLOGY

Designed with an innovative Open Web Design and thicker fibres, Glomesh pads outperform other conventional scrubbing pads.

The Open Web Design decreases the amount of dirt and heat trapped within the pad during and after use, allowing the pad to be longer lasting and increases cleaning performance.

## WHAT MAKES A GOOD PAD

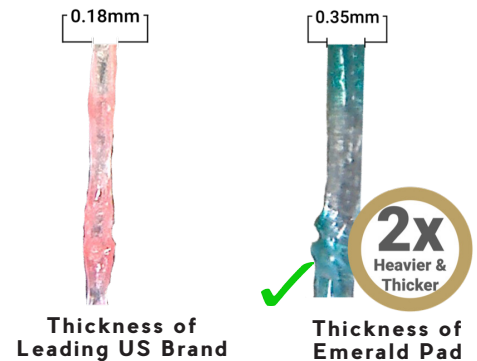

There are **4 major factors** to determine the quality of a scrubbing pad.

### 1. Fibre Denier

This refers to the thickness of the fibre and is **most important**.

Pad fibres are often stretched during use, putting thinner strands of fibre at a disadvantage. Thinner fibres tend to snap as they are not strong enough. Since thicker fibres are able to resist this process longer, this results in more durable pads.

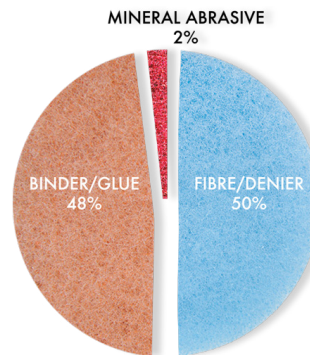

#### Microscope Comparison

### 2. Construction

Superior binder (glue) material is needed to prolong performance and to enhance durability.

Conventional pads often experience high degree of fall out because of weak binder (glue), sacrificing the pad's performance and life.

#### Cost of Materials

##### A combination of cost

- Fibre (50%)
- Binder (Glue) (48%)
- Mineral Abrasive (2%)

### 3. Open Web Design

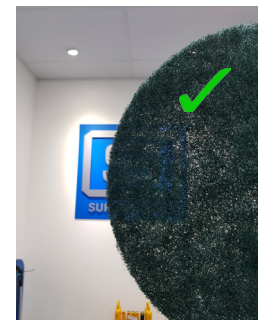

Unlike other leading brands, our latest floor pads have a unique Open Web Design that offers multiple benefits.

Having a breathable pad, heat and dirt are allowed to escape, reducing the breakdown of fibres and maintaining cleaning performance over time.

The Open Web Design also allows for easy washing and increases durability.

Leading US Brand

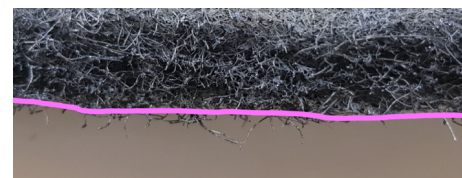

Glomesh

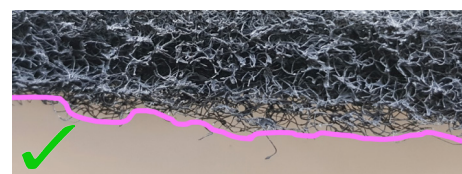

### 4. Floor Contact

The Glomesh Pads possess a flexibility to reach depressions in the floor surface, i.e. "peaks and valleys".

This is determined by the crimps/folds which adds flexibility, a binder (glue) system which must be elastic in nature with slow methodical breakdown rate.

Leading US Brand Pad

Glomesh Pad

# GLOMESH SCRUBBING PADS

## Regular Speed Glomesh Pads

### Aggressiveness

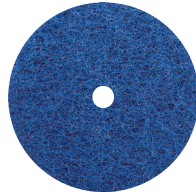

**White**  
- Polish

16" : 6101 - Z - 0010816  
20" : 6101 - Z - 0010820

**Red**  
- Spray buff

15" : 6101 - Z - 0010515  
16" : 6101 - Z - 0010516  
20" : 6101 - Z - 0010520

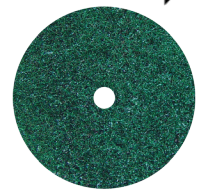

**Blue**  
- Scuff Marks

16" : 6101 - Z - 0010416

**Black**  
- Stripping

15" : 6101 - Z - 0010115  
16" : 6101 - Z - 0010116  
20" : 6101 - Z - 0010120

**Emerald**  
- High Performance Stripping

15" : 6101 - Z - 0030215  
16" : 6101 - Z - 0030216  
20" : 6101 - Z - 0030220

### Types (Regular Speed: 150 - 750 rpm)

- White : Dry polish for higher shine
- Red : Dry buffing or very light wet scrub
- Blue : Lighter scrubbing and less aggressive
- Black : Regular stripping
- Emerald : Most aggressive fastest stripping

### Suitable for Use with

Single Disc Scrubbers

Ride On Scrubbers

Walk Behind Auto Scrubbers

## Ultra High Speed Glomesh Pads

**Blue Ice**  
- UHS High Gloss  
20" : 6101 - Z - 0040120

**Peach**  
- UHS Scuff Remover  
16" : 6101 - Z - 0040516  
20" : 6101 - Z - 0040520

### Types (High Speed: 1000 - 3000+ rpm)

- Blue Ice : High gloss soft pad
- Peach : Remove scuff marks

### Features

- Zero Aluminium Oxide (Blue Ice)
- Thicker Fibres for Durability
- Glue designed for high speed holds better when hotter
- Gentle and does not scratch flooring

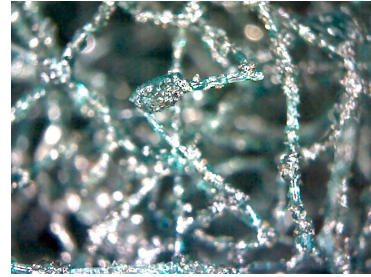

### Suitable for Use with

Single Disc Scrubbers

SuperShine

**THICKER FIBRES**

With 0.35mm thicker fibres comes greater durable and powerful

**FASTEST STRIPPING PAD**

Strips wax at 4x the speed of conventional stripping pads

**PEAKS AND VALLEYS**

Cleans uneven floors thoroughly

# Emerald Pad

**THE PERFECT SCRUB AND BUFFING PAD**

The Emerald pad from Glomesh is the most aggressive and fastest stripping pad. Stripping wax at four times the speed of the a black pad, the Emerald pad is designed to absorb more dirt and to deliver superior cleaning results.

Made of twice the usual fibre thickness, the Emerald pad is durable and powerful. Despite absorbing more dirt, the Emerald Superpad is easy to wash for repeated use.

**Suitable for Use with**

Single Disc Scrubbers

Ride On Scrubbers

**SPECIFICATIONS**

Item	Size	SKU No.
Emerald	15"	6101 - Z - 0030215
	16"	6101 - Z - 0030216
	20"	6101 - Z - 0030220

# GLOMESH SCRUBBING PADS

CLEANING SUPPLIES

### POWERFUL RESULTS

Removes less finish and give up to 30% greater gloss

### OPTIMISED USE

Ideal for use on softer floor finishes such as those typically used in retail and healthcare

### Suitable for Use with

SuperShine

## Blue Ice UHS

### SOFT PAD FOR SOFT AND MEDIUM FINISHES

The Blue Ice High Performance Burnishing Pad is a high quality floor maintenance pad. It is very soft and gentle, almost like a soft buffing cloth.

This burnishing floor pad has been optimised for use on softer floor finishes where frequent burnishing is required and designed for frequent burnishing with less dust, fewer burn marks and swirl marks.

#### RESTORES GLOSS

Revive dull floor surfaces with high speed burnishing that result in higher gloss than most burnishing pads

#### GREATER DURABILITY

Better durability than competitive burnish pad designed for softer floor finishes

### SPECIFICATIONS

Item	Size	SKU No.
Blue Ice	20"	6101 - Z -0040120

**IDEAL AGGRESSIVENESS**

Ideal for high speed burnishing to remove stain marks

**VISIBLE RESULTS**

Quickly remove marks and revitalize flooring

# Peach Pad UHS

**SCUFF REMOVER**

The Peach Pre-Burnish Pad's unique design maximises good fluid through-flow, allowing dirt and fluid to escape.

Used at ultra high speed, the Peach pad is great for spray buffing, shining and cleaning a surface simultaneously. The Peach pad can also be used to remove dirt and black heel marks. Similar to an eraser pad, the Peach pad has thick fibres to help in the cleaning action.

**Suitable for Use with**

Single Disc Scrubbers

SuperShine
