BIFFO

Biffo is a strong degreaser designed for the removal of ingrained soiling from quarry tiles, ceramic tiles, concrete and other similar surfaces.

DIRECTIONS FOR USE

REGULAR MOPPING:

Using warm to hot water prepare a 1:50 solution of BIFFO. Apply liberally and wet mop thoroughly. Pick up slurry and rinse floor with clean water. Scrubbing machines 1:50 to 1:250 dilution depending on soiling.

HEAVILY SOILED SURFACES:

Using warm to hot water prepare a 1:5 solution of BIFFO. Apply liberally by mopping and allow to penetrate for 3-5 minutes then machine scrub using a stripping pad. Pick up slurry and rinse mop with clean water.

SAFETY NOTES

Biffo is highly corrosive. It can cause severe skin burns and eye damage. Glove and safety glasses are highly recommended when handling this product. Avoid breathing vapour or mist. Consult Safety Data Sheet before handling this product.
