

GLOSUDS

Glosuds is a scientifically prepared shampoo exhibiting excellent cleaning properties coupled with a unique blend of additives to enhance the surface finish. The additives in Glosuds penetrate the surface of the paint revitalising it, and provide a fine high gloss protective film to all other surfaces.

A car will instantly water bead after application and the protective layer will greatly assist in water shedding on the glass in heavy rainfalls or storms.

Glosuds contains rust inhibiting agents and is designed for regular maintenance of cars, buses, trucks, caravans, etc.

DIRECTIONS FOR USE

Dilute 50mL of Glosuds in 5L water and apply solution by soft brush or broom to approximately two square metres of surface at a time. Rinse off each section with hose before proceeding. Keep surface wet and finish with a chamois to achieve optimum results.

SAFETY NOTES

Glosuds can be irritating to the skin and eyes. Gloves and eye protection are recommended when handling this product. For further information consult the Safety Data Sheet.
