

WHITEHOUSE

CLEANING EQUIPMENT AND SUPPLIES PTY. LTD.

Pearlee

Pearlee is a light duty, pearlescent hand soap. It produces a rich dense lather combined with a gentle cleansing action, ideal for use in toilets, bathrooms, offices or for general use. It is neutral in pH and contains glycerol for moisturising, leaving your skin with a soft pleasant feel. It is available in a variety of fragrances and effective in hard water or bore water. It will leave no trace of soap residue - hence no bath rings, scummy tiles, dirty hand basins or unsightly shower screens.

Directions

Apply sufficient amount onto wet hands to completely cover. Using a suitable technique thoroughly wash hands for at least 30 seconds and rinse with warm to hot water for best results. Dry hands completely after use. Pearlee can be used in dispensers for more accurate and economical dosing.

SAFETY NOTES

Pearlee is not a poison and is not classified as hazardous under Worksafe provisions. Refer to SDS for further information.
