

REN™

REN ESCALATOR CLEANING TOOLS

Clean your escalator in as little as 5 minutes!

V series Cleaning Pad

V series Cleaning Pad is designed to fit escalators and travelators with tread grooves measuring 34 ridges per every 12 inches across the tread. The V Cleaning Pad is available in three widths to fit 24", 32", and 40" escalators. (600,800,1000mm)

V series Cleaning Pad fits these manufacturers:

- SCHINDLER
- KONE
- WESTINGHOUSE
- MITSUBISHI
- THYSSENKRUP
- HAUGHTON/PEELLE

W series Cleaning Pad

W series Cleaning Pad is designed to fit escalators and travelators with tread grooves measuring 36 ridges per every 12 inches across the tread. The W Cleaning Pad is available in three widths to fit 24", 32", and 40" escalators. (600,800,1000mm)

W series Cleaning Pad fits these manufacturers:

- OTIS
- FUJITEC

The REN™ system cleans any brand, size or style of escalator or travelator in minutes, not hours. One person operational. Stopping the escalator is not required. No external power source needed. Lightweight design makes it easy to transport and simple to store. Engineered sponge pads clean the toughest stains, effectively and gently. Pads can be cleaned and reused

TREAD CLEAN - cleaning solution

Tread Clean escalator liquid concentrate for maintaining and restoring escalator cleanliness. REN™ Clean System provides maximum results when TREAD CLEAN is used as instructed with Cleaning Pads.

Special non-corrosive formulation will not harm escalator mechanics, plastic parts, aluminum or painted treads. TREAD CLEAN dries quickly leaving no sticky residue. Dilution 1:10.

All TREAD CLEAN components are low toxicity, biodegradable, meeting or exceeding VOC requirements. It also contains no Clean Air Act Hazardous Air Pollutants (HAPS), nor is it a RCRA hazardous waste.

What is the REN Escalator Cleaning System?

The REN system is a lightweight, low cost, one-person operational device that doesn't require the escalator be shut off and can complete a cleaning in as fast as five minutes. The system is as easy to use as a mop and requires less effort than a broom.

How does it work?

The REN system uses engineered cleaning pads that fit deep into the grooves and across the span of an escalator's treads. The cleaning pads firstly deliver the optimal amount of **TREAD CLEAN** solution to help break down and emulsify dust, dirt, grease and stains from spilled drinks. The escalator's own propulsion is then used to generate the cleaning action, so no outside power is required. The cleaning pads pick up the liquefied dirt as the treads pass through the shapes of the pad, wiping the treads clean.

Maintenance Cleaning

Schedule your escalators to be cleaned at the same frequency as all other flooring areas. Daily or weekly scheduled cleaning provides a cleaner, safer environment for your property, consistently and cost effectively.

Restorative Cleaning

Get your dirty or neglected escalators back up to your property's maintenance and cleanliness standards. Lower customer complaints and avoid embarrassing stain and dirt buildup on your escalators.

Emergency Spill Resolution

Lower your exposure to slip and fall litigation by instituting a cleaning procedure to rapidly and effectively clean potential hazards from spilled drinks. Keep your escalators looking clean and operating safely.
